

## Report Card

Dongmyoung Lee, Brian Cho

Students name: Napoleon Bonaparte

Napoleon Bonaparte's grade

Subject	Grade for achievement	grade for effort	Key reasons for these grades	suggestion for improvements
<i>Domestic Policy</i>	8	9	He made the taxes in France more fair, he reorganized the Catholicism to "Faith of Frenchmen" and he found the Lycees .Napoleon gave the privilages to the people who were talented too.Not only the people with money.	Next time I think he should never think about slavery in France and he should of given the women some rights also.
<i>Foreign Policy</i>	5.5	7	He defeated Austria, Prussia, and Russia. He also was involved with the imposition of the continental system.	I think he should try to get good relationships with other countries so that they don't abandon.
<i>Ability to gain trust of his people</i>	7	9	Napoleon was the greatest leader. He had most of the power over Europe. He had the society of France to be very stable.	I think he should not get dictatorship in France. That will make his people not trust him. The monarchy in France was much better than dictatorship.

## Hero or Villain?

Grade	Comments
8	<p>First of all he made Monarchy in France. The dictatorship controlled over France and it was like when Louis XVI had the power. He also became most powerful leader who defended his own country.</p> <p>I think he did a great job and he was a big help for France to succeed.</p>

Comments; I think your son, Napoleon Bonaparte, is a very responsible person. He puts in a lot of effort into everything he does. For next time I think he would have to do more things to earn a better grade. He also should not do somethings that he did this semester. The one thing that I am very proud of Napoleon is that he gave the citizens what they wanted by dictatorship. His leadership was a great help also. I am sure that Napoleon will do a great job next semester. Keep up the good work!

Thank you
